

who custom cuts?

— gafchromic™ film

To help you save time and money, Ashland can provide you with customized, laser cut, gafchromic™ film to meet your exact specifications.

- save time – ready to use right out of the box
- reduce waste – no film scrap since the film is cut to your specifications
- consistent cuts – film is cut with precision to ensure each cut of film is correct

For orders and inquiries, please contact advancedmaterials@ashland.com, and please include specifications and diagrams.
